GENERAL
Check the box contents. You should receive: a shade, finial, base and enclosure. To protect the finish, place all the parts on a soft surface.

ASSEMBLY
1. Carefully lay out all the parts on a soft surface.

2. Thread the threaded pipe onto the top of the lampholder.

3. Place the shade over the threaded pipe.

4. Secure the shade with the finial.

5. Install two maximum medium base type “A” bulb into the socket; (60W Max) (bulbs are not included)

6. Insert plug into wall receptacle.

TROUBLE SHOOTING:
1. If your lamp does not light, check plug at the outlet. Make sure the plugs fully and properly inserted;
2. If the lamp does not light, unplug from the outlet, check the bulb for a broken filament. Replace the bulb if necessary. Plug in lamp and turn it on.
3. If the lamp still does not light, please contact your distributor or place of purchase.

IMPORTANT SAFETY INSTRUCTIONS:
This portable lamp has a polarized plug (one blade is wider than the other) As a safety feature to reduce the risk of the electric shock. This plug will fit a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug if it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Don’t alter the plug. As with any electrical appliance, keep out of reach of children.
